

REMARKS

This case has been carefully reviewed and analyzed in view of the outstanding Office Action dated March 31, 2006.

The Examiner has stated that the oath or declaration is defective. A new declaration is submitted as instructed by the Examiner.

Further, the Examiner has objected to Figure 5. A replacement sheet of the drawing for Figure 5 is submitted for the Examiner's approval.

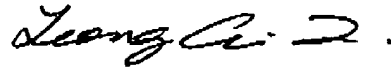

Furthermore, the Examiner has objected to disclosure, and the abstract of the disclosure, and the disclosure because of informalities. The disclosure, and the abstract of the disclosure have been corrected in order to overcome the objections.

Moreover, the Examiner has objected to claims 1-3 and 5 under 37 CFR1.75(a), as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The Examiner has stated that claims 1-2 would be allowable if rewritten or amended to overcome the objection(s) under 37 CFR1.75(a), set forth in this Office action, and claims 3 and 5 would be allowable if rewritten to overcome the objection(s) under 37 CFR1.75(a), set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. Claims 1-2 and claims 3 and 5 are replaced with new claims 6-9 which are rewritten from claims 1, 2, 3 and 5 as instructed in order to overcome the objections.

The applicant has reviewed the prior art as cited by the Examiner but not used in the rejection and believes that the new claims clearly and distinctly patentably define over such prior art.

It is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.

Respectfully submitted,
